

Life Happens

And when it does, we are here to help.

Whether your medical services were part of a personalized surgical treatment plan or you made an unexpected visit to Bone & Joint's Walk-In Care Center, we know recovering from an accident or injury is easier when you have peace of mind.

Now we can help you get the medical care you need without worrying about how you will pay the bill when it arrives.

In an effort to help our patients meet the challenge of high-deductible insurance programs and make ends meet, Bone & Joint has partnered with Commerce Bank to help make paying medical bills more manageable.

Our special arrangement allows you to pay your bills with monthly payments that carry zero-cost financing when you have a balance of \$1,000 or more. Depending on the amount, you can finance your care for 12, 24 or 36 months.
